4 Impact

- developed for impact drivers
- unique 3-step synchronized torsion zones
- additional torque absorption step with Felo Impact bits

 **made in
Germany**

The new Felo series 4 IMPACT is especially designed for the extreme loads being caused by impact drivers.

Bitholder and bit work perfectly together for a substantially increased tool-lifetime.

- S-M-L absorption cascade for a wide torque range (e.g. PH1 – PH3).
- Synchronized torsion-zones are sequentially triggered at increasing torque impulses and absorb torque peaks.

- Additional 4th absorption step when used with Felo Impact bits.
- Specially developed to be used with tangential impact drivers.
