**Automatic holder
for bits & screws**

**made in
Germany**

**Automatically adjusts to the depth
of screw heads and securely holds
screws in all conditions!**

The unique Felo automatic holder adjusts itself to the depth of every screw head and safely holds even large screws.

In all working positions and at all speeds!

Robust design and high-quality, no-wear components result in an unlimited life span.

Also available with Felo Impact and Torsion bits.

Quality guaranteed!

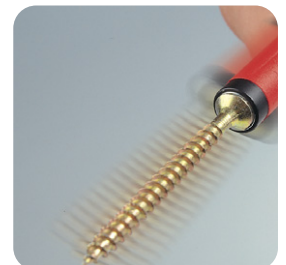

Only one hand needed for operation – your other hand is free for positioning the workpiece or securing your hold.
